5. Ensure that the excavated areas are backfilled and restored to a state equivalent to the original state or improved;
6. Ensure that all excavated material and debris is collected, re-used and where need be; disposed off as per the Environmental Management and Coordination (Waste Management) Regulations, 2006;
7. Ensure strict adherence to the provisions of the Environmental Management and Coordination (Air Quality) Regulations, 2014;
8. Ensure strict adherence to the provisions of Environmental Management and Coordination (Noise and Excessive Vibration Pollution Control) Regulations, 2009;
9. Ensure that, pursuant to regulation 6 (c) of the Water Quality Regulations, 2006, any wetland and/or riparian is protected by ensuring that **NO** development activity is undertaken within the full width of the stream to a minimum of six (6) meters and a maximum of 30 meters on either side based on the highest recorded flood levels;
10. Put in place an appropriate traffic management plan that will ensure that there will be no obstruction of vehicle and human traffic during the entire period of the project implementation;
11. Ensure strict adherence to the Occupational Safety and Health Act (OSHA), 2007;
12. Ensure that construction workers are provided with adequate personal protection equipment (PPE), sanitary facilities as well as adequate training.
13. Ensure that construction activities are undertaken during the day (and not at night) between 0800Hrs and 1800Hrs; and on Saturday between 0800Hrs. to 1300Hrs. No work shall be undertaken on Sundays; and that transportation of construction material to and from site is undertaken during Weekdays and Saturdays only during the hours specified herein;
14. Give emphasis to the control of Dust, Noise, Vibration and Occupational Hazards;
15. Give appropriate notification to the neighbors to limit nuisance caused;
